

Race Line

This line package is designed for use with Lasers that are actively raced. The lines that are spec'd out in this package are for use with pro model Lasers that have the upgraded outhaul, Cunningham and vang setups. Includes a mast retaining line and a longer outhaul line to work with either a 4:1 or 6:1 purchase. Line lengths and diameters in this package are spec'd to stock lengths. Line kits are precut, therefore line lengths and colors may not be altered.

PURPOSE	LENGTH (ft)	DIAMETER (in)	LINE TYPE
Mainsheet	46	9/32	FSE Robline Dinghy Sheet
