

# Help Remap the Northeast and Support Hurricane Sandy Recovery July 19, 20, 21

**Navionics will donate \$1 per mile of sonar logs to benefit the Marine Trades Association of New Jersey Hurricane Sandy Recovery & Relief Fund.**

**How to help:** Humminbird and Garmin users can record sonar logs, then upload them to the Navionics webstore. Updated charts, reflecting everyone's contributions to SonarCharts™ and Community Edits, can be downloaded after about one week. **Visit [navionics.com/sandy](http://navionics.com/sandy) for instructions and more details.**

**The New Jersey coastline has  
changed significantly.**

**Please help your  
fellow boaters remap  
the coast.**

**Visit us for more information.**
